SNC has brought interesting opportunities into my life – ones that weren't here before.

On April 15<sup>th</sup> I was asked to judge the FCCLA chapters' showcase manuals. Middle and High School students who represented their chapters had 15 minutes to present their scrapbooks to a panel of three judges. We then scored both the presentation and the books. The FCCLA is the Family, Career, and Community Leaders of America. (It was FHA – Future Homemakers of America -- in my day!) These students are impressive public speakers and really good scrapbookers!

Next, on June 10<sup>th</sup>, I will be setting up a display at the Hocking County Board of Developmental

Disabilities' Expo. This opportunity came as a result of a discussion with my financial advisor, Charles Locy.

While he works with folks like me with retirement accounts, investments, insurance, etc., Chuck specializes in helping families with their Special Needs Estate Planning Process.

We talked about the parents' letter of intent which will help future care givers understand the likes, wants and needs of their special child. We also talked about the Lifebooks that Foster Parents help their foster kids build. All of this ties nicely to Scrap-n-Country's Custom Scrapbooking capabilities and supplies at a good price.

Should you need financial advice – I recommend Chuck!
